

Full-Time Registered Nurse, Mental Health & Addictions

For more than 30 years, the London InterCommunity Health Centre has provided health and social services to those who experience barriers to care including poverty, homelessness, language or culture, and complex and/or chronic health conditions including mental health and addictions. Today, with four busy clinics in three of London's most under-served regions, the organization is viewed as a community leader in newcomer health, care of vulnerable women, issues of health equity, client-led service development and the advancement of partnerships that improve access to vital services for the community's most vulnerable.

About the Position

Working to a full scope of practice, the RN will provide comprehensive primary care nursing, in a primary care clinic setting with a special focus on mental health and addictions.

The RN will apply an appreciation for the intersectionality between environmental and community contexts, and a person's physical and psychological health. This includes analysis of health behaviours related to lifestyle and culture, review of client's medical history, physical assessments, mental health and substance use assessments, nursing diagnosis, and development and implementation of person-centred care plans.

The RN works as a member of a multi-disciplinary team supported by physicians, nurse practitioners, dietitians,

social workers, outreach workers, community development workers, and support staff.

The RN also functions and participates in the development, implementation, monitoring and evaluation of programs, services and quality improvement initiatives for the communities served. The successful candidate will act with professionalism and courtesy toward clients, the general public and colleagues and will demonstrate knowledge and valuing of the clients' life situation.

We are seeking to fill one full-time permanent role to support our Primary Care Team. This position will require 37.5 hours per week with some evening availability to support evening clinics.

Required Qualifications:

- Post secondary diploma (RN) or degree (BScN) from a recognized college or university
- Current registration with the College of Nurses of Ontario
- Minimum 2 years' of nursing experience
- Awareness of and understanding of the social determinants of health and health promotion
- Ability to practice from social justice, trauma and violence informed care, and harm reduction frameworks.

London InterCommunity Health Centre

- Clinical knowledge of mental health care, addictions, concurrent disorders, dual diagnoses, and application of current best practices, assessments and interventions
- Demonstrated effective crisis prevention, intervention and stabilization skills
- Ability to work effectively in a high stress clinical environment and ability to adapt quickly to a changing work environment
- Excellent written and oral communication and interpersonal skills

Preferred Qualifications:

- experience in mental health care and working with people experiencing substance use disorders and homelessness

Nice to Haves:

- French and other language skills are considered an asset in supporting the communities we serve.

What's in it for you:
